# **MSDS** Document

# Product Dynatex® 49292 Red Hi-Temp RTV Silicone Gasket Maker - L/\

# 1. Chemical Product and Company Identification

Trade Name of this Product Dynatex® 49292 Red Hi-Temp RTV Silicone Gasket Maker - L/V MSDS ID DY49292

# Manufacturer

Accumetric, LLC 350 Ring Road Elizabethtown, KY 42701 Phone Number (270) 769-3385 Emergency Phone CHEMTREC (800) 424-9300

Revision Date 7/22/2005

# 2. Composition and Information on Ingredients

<b>Ingredient</b>	<b>CAS Number</b> 4253-34-3	<b>Weight %</b>	ACGIH TLV	<b>PEL</b>	STEL
Methyltriacetoxysilane		1% - 5%	TWA 10ppm	TWA 10ppm	15ppm
Ethyltriacetoxysilane	17689-77-9	1% - 5%	TWA 10ppm	TWA 10ppm	15ppm

# 3. Hazard Identification

# **Eye Contact**

Direct contact may cause moderate irritation.

#### **Skin Contact**

May cause moderate irritation.

#### Inhalation

Material is not likely to present an inhalation hazard at ambient conditions. However, if material is heated or high vapor/aerosol concentrations are attained, central nervous system depression may occur, which is characterized by drowsiness, dizziness, confusion or loss of coordination.

### Ingestion

No significant effects expected from a single short term exposure.

Page 2 8
Print Rev. Date 08/02/2005
MSDS ID DY49292
Dynatex® 49292 Red Hi-Temp
RTV Silicone Gasket Maker L/V

# **Symptoms of Overexposure**

No known applicable information.

# **Existing Conditions Aggravated by Exposure**

No known applicable information.

### 4. First Aid Information

### **Eye Contact**

Immediately flush with water for 15 minutes. Seek medical attention.

### **Skin Contact**

Remove from skin and wash throughly with soap and water or waterless cleanser. Get medical attention if irritation or other ill effects develop or persist.

#### Inhalation

Material is not likely to present an inhalation hazard at ambient conditions. If material is heated or vapor/mist/dust/fumes are generated, care should be taken to prevent inhalation. In case of exposure to vapor/mist/dust/fumes, move to fresh air.

### Ingestion

No first aid should be needed.

#### **Comments**

Treat according to person's condition and specifics of exposure.

# 5. Fire Fighting Measures

Flash Point >212F >100C FP Method Closed Cup

### **Auto-ignition Temperature**

Not determined

# Flammability Limits in Air

Not determined

### **Extinguishing Media**

On large fires use dry chemical, foam, or water spray. On small fires use carbon dioxide, dry chemical or water spray. Water can be used to cool fire exposed containers.

# **Special Fire Fighting Procedures**

Self-contained breathing apparatus and protective clothing should be worn when fighting large fires involving chemicals. Determine the need to evacuate or isolate the area according to your local emergency plan. Use water spray to keep fire exposed containers cool.

### **Unusual Fire or Explosion Hazards**

None

RTV Silicone Gasket Maker L/V

### **Hazardous Decomposition Products**

Thermal breakdown of this product during fire or very high heat conditions may evolve the following hazardous decomposition products:

Carbon oxides and traces of incompletely burned carbon compounds

Formaldehyde

Silicon dioxide

Metal oxides

#### Comment

When temperatures above 150°C in the presence of air, product can form formaldehyde vapors. Formaldehyde is a potential cancer hazard, a known skin and respiratory sensitizer, and an irritant to the eyes, nose, throat, skin and digestive system. Safe handling conditions may be maintained by keeping vapor concentrations within the OSHA Permissible Exposure Limits for formaldehyde.

# 6. Accidental Release Measures

# Steps to be taken in case of spill or release

Observe all personal protection equipment recommendations in Sections 5 and 8. Wipe or scrape up and contain for salvage or disposal. Clean area as appropriate since spilled materials, even in small quantities, may present a slip hazard. Final cleaning may require use of steam, solvents or detergents. Dispose of saturated absorbant or cleaning materials appropriately, since spontaneous heating may occur. Local, state and federal laws and regulations may apply to releases and disposal of this material, as well as those materials and items employed in the cleanup of releases. You will need to determine which federal, state and local laws and regulations are applicable. Sections 13 and 15 of this MSDS provide information regarding certain federal and state requirements.

### Note

See Section 8 for information about personal protective equipment for spills. Contact Accumetric, LLC if additional information is required.

# 7. Handling and Storage

#### Handling

Use adequate ventilation. Product evolves acetic acid when exposed to water or humid air. Provide ventilation during use to control acetic acid within exposure guidelines or use respiratory protection. Avoid eye contact. Avoid skin contact. Keep container closed. Do not take internally. Avoid breathing vapor.

# **Storage**

Use reasonable care and store away from oxidizing materials. Keep container closed and store away from water or moisture.

# 8. Exposure Controls and Personal Protection

**Component Exposure Limits** 

Component Name: Ethyltriacetoxysilane

Page 4 8
Print Rev. Date 08/02/2005
MSDS ID DY49292
Dynatex® 49292 Red Hi-Temp
RTV Silicone Gasket Maker L/V

CAS Number: 17689-77-9

Exposure Limits: See acetic acid comments

Component Name: Methyltriacetoxysilane

CAS Number: 4253-34-3

Exposure Limits: See acetic acid comments

Acetic acid is formed upon contact with water or humid air. Provide adequate ventilation to control exposures within guidelines of OSHA PEL: TWA 10 ppm and ACGIH TLV: TWA 10 ppm, STEL 15 ppm.

# **Engineering Controls**

Local Ventilation: Recommended General Ventilation: Recommended

### **Eye Protection**

Safety goggles or glasses with side shields are recommended.

#### **Skin Protection**

Wash at mealtimes and end of shift. Contaminated clothing and shoes should be removed as soon as practical and throughly cleaned before reuse. Chemical protective gloves are recommended.

Suitable Gloves:

Nitrile Rubber. Butyl Rubber.

#### Inhalation

Use respiratory protection unless local exhaust ventilation is provided or exposure assessment demonstrates that exposures are within recommended exposure guidelines. IH personnel can assist in judging the adequacy of existing engineering controls.

# **Suitable Respirator**

Respiratory protection is not needed under ambient conditions. If vapor/mist/dust/fumes are generated when material is heated or handled, the following is advised. General and local exhaust ventilation is recommended to maintain vapor exposures below recommended limits. Where concentrations are above recommended limits or are unknown, appropriate respiratory protection should be worn. Follow OSHA respirator regulations (29 CFR 1910.134) and use NIOSH/MSHA approved respirators.

# **Personal Protective Equipment for Spills**

Eyes: Use full face respirator.

Skin: Wash at mealtimes and end of shift. Contaminated clothing and shoes should be removed as soon as practical and throughly cleaned before reuse. Chemical protective gloves are recommended.

Inhalation/Suitable Respirator: Respiratory protection recommended. Follow OSHA Respirator Regulations (29 CFR 1910.134) and use NIOSH/MSHA approved respirators. Protection provided by air purifying respirators against exposure to any hazardous chemical is limited. Use a positive pressure air supplied respirator if there is any potential for uncontrolled release, exposure levels are unknown, or any other circumstance where air

Page 5 8
Print Rev. Date 08/02/2005
MSDS ID DY49292
Dynatex® 49292 Red Hi-Temp
RTV Silicone Gasket Maker L/V

purifying respirators may not provide adequate protection.

# **Precautionary Measures**

Avoid eye contact. Avoid skin contact. Avoid breathing vapor. Keep container closed. Do not take internally. Use reasonable care.

#### Comment

Product evolves acetic acid when exposed to water or humid air. Provide ventilation during use to control acetic acid within exposure guidelines or use respiratory protection. When heated to temperatures above 150C in the presence of air, product can form formaldehyde vapors. Formaldehyde is a potential cancer hazard, a known skin and respiratory sensitizer, and an irritant to the eyes, nose throat, skin and digestive system. Safe handling conditions may be maintained by keeping vapor concentrations within the OSHA Permissible Exposure Limit for formaldehyde.

#### Note

These precautions are for room temperature handling. Use at elevated temperatures or aerosol/spray applications may require added precautions.

# 9. Physical and Chemical Properties

Physical State Paste Specific Gravity 1.007 Color/Appearance Red

Odor Acetic Acid Odor рΗ Not Determined Boiling/Cond. Point Not Determined Melting/Freezing Point Not Determined Solubility Not Determined Evaporation Rate Not Determined Viscosity Not Determined Vapor Density Not Determined Vapor Pressure Not Determined

#### Note

### **Component Toxicology Information**

No known applicable information.

# **Special Hazard Information on Components**

No known applicable information.

# 12. Ecological Information

# **Environmental Fate and Distribution**

Complete information is not yet available.

#### **Environmental Effects**

Complete information is not yet available.

### **Fate and Effects in Waste Water Treatment Plants**

Complete information is not yet available.

# 13. Disposal Considerations

# RCRA Hazard Class (40 CFR 261)

When a decision is made to discard this material, as received, is it classified as a hazardous waste? NO

State or local laws may impose additional regulatory requirements regarding disposal.

# **Waste Disposal Method**

We make no guarantee or warranty of any kind that the use or disposal of this product complies with all local, state, or federal laws. It is also the obligation of each user of the product mentioned herein to determine and comply with the requirements of all applicable statutes.

This product is not known to be regulated under RCRA regulations. Disposal of unused portions of this product and process waste containing this product should be done only after a careful evaluation and in compliance with all federal, local and state laws.

# 14. Transportation Information

**DOT Road Shipment Information** 

Not subject to DOT.

# Ocean Shipment (IMDG)

Not subject to IMDG code.

# Air Shipment (IATA)

Not subject to IATA regulations.

# 15. Regulatory Information

The contents of this MSDS comply with the OSHA Hazard Communication Standard 29 CFR 1910.1200.

### SARA Title III Section 302 Extremely Hazardous Substances

None

#### SARA Title III Section 304 CERCLA Hazardous Substances

None

#### SARA Title III Section 312 Hazard Class

Acute: Yes Chronic: No Fire: No Pressure: No Reactive: No

#### **SARA Title III Section 313 Toxic Chemicals**

None present or none present in regulated quantities.

### **TSCA Status**

All chemical substances in this material are included on or exempted from listing on the TSCA Inventory of Chemical Substances.

# **California Proposition 65**

This product contains the following chemical(s) listed by the State of California under the Safe Drinking Water and Toxic Enforcement Act of 1986 (Proposition 65) as being known to cause cancer, birth defects or other reproductive harm:

None known

# **Massachusetts**

Iron oxide (1309-37-1) Silica, amorphous (7631-86-9)

# **New Jersey**
