FAR RAC 180

This tool is the jewel of the FAR riveting crown! An air cylinder of brass encased in plastic. A frame of steel encased in plastic. A fully enclosed mandrel ejection system. (No air lines get caught from the ejection system!) Lightweight, durable, ideal for all production line environments. Swivel air inlet and perfect tool balance reduce operator fatigue. For use with rivets up to 1/4" aluminum/steel.

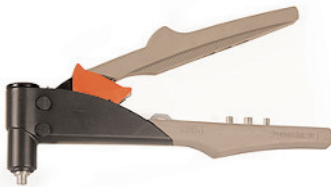

FAR K20

Heavy-duty rugged tool for rivets in alloys thru size 5/16" including Monobolts, "T" rivets and other structural fasteners. Compact design generates tremendous pulling power. Extended nosepiece allows riveting in those hard to reach areas. Also available with additional nosepiece extension up to 8 inches.

FAR K2

Lightweight industrial quality tool for in-plant maintenance and serious homeowner jobs. Built with a lightweight aluminum front handle and steel rear handle. For rivets 3/32" thru 3/16 all metals.

POP PL30

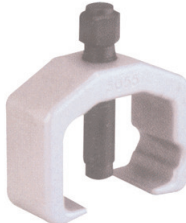

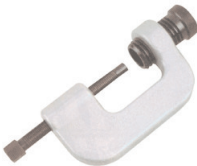

Shorter grip opening for one handed use. Soft Santoprene® covered grips are contoured to fit your hand and specially designed to eliminate pinch points. Compact nose housing for back pocket or tool belt storage. Built-in latch design keeps handles closed without awkward chains or wires. Includes four nosepieces for use with 3/32" 1/8", 5/32" and 3/16" rivets tucked inside the handle.
